PUBLIC SCHOOL DAILY REGISTER

—FOR—

RECORDING THE ATTENDANCE

—OF—

PUPILS

In Public School, Number *One*. in the
Township of Dawn.

FOR THE YEAR

R. Campbell
Teacher

Toronto:

PRINTED FOR THE EDUCATION DEPARTMENT FOR ONTARIO BY WARWICK BRO'S AND RUTTER
1899.

R. Campbell Teacher

Supplied to the Public Schools free through the School Inspectors.

Form 187—11,000—February, 1899.

*Charles H. Stevens
Secretary*

APRIL

Plant Studies—Grafting and pruning—Practice on neglected trees—How to restore an old orchard.
Farm, Garden and Orchard Work— Implements used in spring work—Their principles of construction—How and why used—Spraying outfits—Preparation and use of fungicides and insecticides.
Farm Arithmetic—Problems based on actual local operations—Cost of plowing, harrowing, seeding, rolling, cultivating, building fences, silos, sheds, barns, etc.
Garden Work (for April or May)—Preparing the ground, laying out plots, planting.

MAY

Plant Studies—Identification of weed seedlings in garden—Study of fruit blossoms and formation of fruit—Practice in proper method of planting fruit or shade trees.
Arbor Day—Organization for school ground improvement—Local bee to clean, level, plant trees and shrubbery, mend fences and outbuildings, prepare garden, improve road in front of school—Sports and social.
Animal Studies—Earthworm, bee, toad, beneficial birds, particularly in relation to agriculture.
Garden Work—Class instruction and exercises in thinning, mulching and weeding—Studies of seedlings' development—Setting out of window boxes and hanging baskets.

PLAN OF SCHOOL GARDEN

Showing location with respect to school—Area—Flower beds—Experiments and demonstrations—Vines and shrubbery planted—School ground improvement undertaken.

PUPILS' HOME PROJECTS

Work undertaken by School Progress Club or pupils at home—Plans for supervising—How supervised and results of experiments.

JUNE

Plant Studies—Studies of flower structures such as corn, wheat, potato, tomato—Spraying for plant diseases.
Road Improvement—Principles of good road making—An ideal country road—Improvement of road in front of school.
Class Excursion—Directed excursion to Agricultural College or other Experimental Farm for older pupils.
Insect Studies—Work of common injurious insects such as cutworms, codling moth, oyster shell bark louse, cabbage butterfly and remedies.
Garden Work—Leaving all garden work in good shape—Definite arrangements for the care and protection of the garden during holidays, for observations and necessary harvesting.

SUMMER HOLIDAYS

Indicating how the garden was cared for and what work was done, also condition at school opening.

N.B.—This report is to be forwarded to the Inspector, who will transmit it to the Minister of Education. It should be in the hands of the Minister shortly after New Year at the latest.

THE DEPARTMENT OF EDUCATION OF ONTARIO

TEACHER'S REPORT

ON

INSTRUCTION GIVEN IN ELEMENTARY AGRICULTURE AND HORTICULTURE

JANUARY—DECEMBER, 1914.

INSTRUCTIONS :

- (1) Teachers desiring help in any phase of the work should write the *Director of Elementary Agricultural Education, Ontario Agricultural College, Guelph.*
- (2) In accordance with the Regulations (see Circular 13) teachers are required to record weekly the work done in order to qualify for grants. Pupils also in the upper classes are to keep records of instruction received and work done; for this separate and uniform note books should be used.
- (3) This report, endorsed by the teacher, is to be transmitted to the Department of Education through the local Inspector. Teachers should arrange to forward it to their Inspectors at the close of the school term before Christmas, along with the Trustees' statement of expenditure.
- (4) The work herein suggested is based on the course outlined in Nature Study. *It is not expected that all the work can be covered.* Teachers will use their own judgment in the choice of topics. The work should bear directly on local interests, and be of a practical character. At least one hour a week is to be given to the work.
- (5) While the records must necessarily be brief, they must indicate clearly *what has been done and how it has been done*, e.g.: *April 10th—With pupils' help, pruned old apple tree in school yard; all prepared for work by reading, enquiry and discussion.* Pupils recorded work in 'before and after' drawings.
- (6) Most of the work of instruction must be of necessity with the pupils in the highest classes. It is to be practical as far as possible; merely talking and reading about topics will not answer; observation, investigation and experimenting by the pupils should form a basis for lessons.
- (7) Teachers are recommended to keep a duplicate of this Report for their own or others' guidance in future years. Extra forms may be had on application to the Director.
- (8) To prevent delays, misunderstandings or mistakes regarding grants, teachers leaving in June should take care to leave their records complete, properly endorsed and in safe hands, also to show their new addresses.

School..... (No. and Township)	Teacher
Local Name	When Certificate in Agriculture was obtained
County.....	P. O. Address
Inspector.....	

JANUARY

Plant Studies—Investigation of district's forest-tree areas with maps and census—Trees represented in firewood and sawlogs—Arithmetic problems on lumber, sawlogs and woodpiles—Plans for conserving local forests, reforesting waste lands or establishing school arboretum—Value of ashes and saving of same for garden.

Animal Studies—Breeds of farm animals with local surveys and references.

Pupils' Progress Clubs—Organization for boys' work in poultry improvement (Poultry Club); and seed improvement (Corn, Oat, Barley or Potato Clubs), and for girls work in home-cooking or sewing, growing and canning tomatoes or cultivating flowers (Tomato or Flower Clubs); winter reading in connection with these.

Physical Science—Practical lessons on air and liquid pressures—Common pump, barometer, lactometer.

FEBRUARY

Plant Studies—1. Germination tests of seed to be sown on local farms—Structure of little plants—Effects of light, heat and moisture on growth.

2. Study of apple or other fruit tree twigs to learn age, markings, fruit and leaf buds, etc.

Farm Crops—Study of structure of head of wheat and wheat grain—Comparison with oats, barley, corn—The legumes and their tubercles.

Milk Studies—Determination of specific gravity—Estimation of fat with Babcock Test—Pupils' cow testing work at home—Cow Testing Associations under Department of Agriculture, Ottawa.

Physical Science—Simple applications of electricity and steam.

MARCH

Plant Studies—Estimation of weed-seed impurities in seed to be sown locally; testing seed for germinability—Grading of seed samples under the Seed Control Act.

Farm Work—Maps of home farms showing the proposed plans of cropping—Rotations—Systems of farming.

Garden Work—Commencing seeds in boxes in windows or hot bed—Preparing stakes, labels, tools, window boxes, hanging baskets—Purchasing seeds, fertilizers, etc.—Settling plans for garden experiments.

Soil Studies—A simple analysis—Classification of samples of soils—Water holding capacities—Effect of lime on clay—Soil maps of pupils' home farms—Local drainage schemes and possibilities.
